

The graph displays the training loss for nine different runs. The x-axis represents the number of epochs, ranging from 0 to 1000. The y-axis represents the loss, ranging from 0.00 to 0.10. All runs exhibit a rapid decrease in loss, stabilizing near zero after about 100 epochs. Run #7 (pink) starts with the highest initial loss, while Run #3 (green) starts with the lowest.
