

The graph illustrates the training loss for six different runs over 1000 epochs. The x-axis represents the number of epochs, and the y-axis represents the training loss. The loss for all runs starts at approximately 0.0015 and decreases in a step-wise fashion. Run # 6 (brown) decreases first at epoch 50. Run # 1 (blue) decreases at epoch 100. Run # 5 (purple) decreases at epoch 120. Run # 3 (green) decreases at epoch 140. Run # 2 (orange) decreases at epoch 160. Run # 4 (red) decreases at epoch 180. All runs reach a loss of 0.000 by epoch 250 and remain there until epoch 1000.
